

The KING TEC Irons are designed to inspire a better ball striking experience. Featuring a new 5-step forged body and face, and refined shaping, these irons deliver true feel and better player looks with all of the forgiveness you need.

REFINED SHAPING

Experience unrivaled ball-striking through a sleeker and refined shape featuring a thinner topline and reduced offset that inspires precision and playability.

ENHANCED FEEL THROUGH FORGING & FOAM TECH

Each TEC iron is crafted from 1025 carbon steel and precision-forged 5 times to deliver soft, player-preferred feel. A hollow body design is filled with a new foam that is lighter and softer to enhance feel and feedback.

INCREASED SPEED AND STABILITY: PWRSHELL H.O.T FACE & TUNGSTEN WEIGHTING

Dynamic distance is unleashed using a hollow body, a thinner and more robust PWRSHELL insert with H.O.T Face Technology, and 20g of tungsten in the toe for added stability.

The KING TEC X Irons redefine how a game improvement iron should look and feel. Exhilarating distance and forgiveness are achieved through an internal 70g tungsten weight and hollow body construction, giving you the keys to improve your game while looking like a serious player.

PLAYERS GAME IMPROVEMENT SHAPING

Featuring a slightly larger profile than KING TEC, the X model is designed to inspire confidence in a more forgiving shape that delivers enhanced stability on off-center hits.

IMPROVED FEEL: HOLLOW CONSTRUCTION WITH SOFTER FOAM

A hollow body design is filled with a new foam that is lighter and softer to enhance feel and feedback.

INCREASED SPEED AND STABILITY: PWRSHELL H.O.T FACE & TUNGSTEN WEIGHTING

Dynamic distance is unleashed using a hollow body, a thinner and more robust PWRSHELL insert with H.O.T Face Technology, and 70g of tungsten in the toe for added stability.
